SOCIETY

About Marine Technology Society:

The Marine Technology Society promotes awareness, understanding, and the advancement and application of marine technology. Incorporated in 1963, the international society brings together businesses, institutions, professionals, academics, and students who are ocean engineers, technologists, policy makers, and educators.

President's Column
Risk Spread

In preparation for our upcoming MTS elections, I've had some interesting discussions with MTS members and staff about the importance of risk spread. While marine technology did not come up in the recent 2018 European Leadership elections, and I'm sure it won't be a major topic in the 2019 US Leadership elections, it's a topic that we should all be engaged in.
